Corporate Profile

VTech is one of the world's largest suppliers of corded and cordless telephones and a leading supplier of electronic learning products. It also provides highly sought-after contract manufacturing services. Founded in 1976, the Group's mission is to be the most cost effective designer and manufacturer of innovative, high quality consumer electronics products and to distribute them to markets worldwide in the most efficient manner.

With headquarters in the Hong Kong Special Administrative Region and state-of-the-art manufacturing facilities in mainland China, VTech currently has a presence in 10 countries and over 30,000 employees, including around 1,300 R&D professionals in R&D centres in Canada, Hong Kong and mainland China. This network allows VTech to stay abreast of the latest technology and market trends throughout the world, while maintaining a highly competitive cost structure.

The Group invested US\$45.2 million in R&D in the financial year 2007 and launches numerous new products each year. VTech sells its products via a strong brand platform supported by an extensive distribution network of leading retailers in North America, Europe and Asia. Apart from the well-known VTech brand, the Group has the rights to use the AT&T brand in connection with the manufacture and sale of its wireline telephones and accessories.

In addition, VTech has license agreements with licensors of well-known children's characters that allow it to use those characters in the cartridges for its popular V.Smile product range and certain electronic learning products.

Shares of VTech Holdings Limited are listed on both the Hong Kong and London stock exchanges (HKSE: 303; LSE: VTH). Ordinary shares are also available in the form of American Depositary Receipts (ADRs) through the Bank of New York (ADR: VTKHY).

Letter to Shareholders

"All three of our businesses recorded revenue increases during the financial year 2007, resulting in revenue for the Group reaching an all-time high."

Allan WONG Chi Yun
Chairman

DEAR SHAREHOLDERS,

All three of our businesses recorded revenue increases during the financial year 2007, resulting in revenue for the Group reaching an all-time high. This, together with an improvement in operating profit margin, allowed us to achieve a second straight year of record profit. The results demonstrate that we are reaping the benefit of the hard work put in over recent years to enhance our operations and build a solid foundation for growth.

RESULTS

Revenue for the Group increased by 21.5% over the financial year 2006 to US\$1,463.8 million. Profit attributable to shareholders rose by 42.0% to US\$182.9 million, while earnings per share increased by 39.5% to US76.6 cents. With the Group's balance sheet remaining strong, the Board of Directors has proposed a final dividend of US41.0 cents per share. Together with the interim dividend of US9.0 cents per share and the special dividend of US30.0 cents per share made in celebration of the Group's 30th anniversary, this gives a total dividend for the year of US80.0 cents per share, 150.0% higher than the US32.0 cents per share declared for the financial year 2006.

OPERATIONS

Following two years of rationalisation at its US operations, the telecommunication products (TEL) business regained its leadership position in the US cordless phone market. A rebound in sales in this market led to a marked increase in revenue for the TEL business overall, while contribution to the Group continued to improve.

↑ **42.0%**
(2007 vs 2006)

The gains in North America were the result of the success of the new product lines. The 5.8GHz phones, together with the AT&T 2.4GHz products using proprietary technology developed in-house, proved popular with consumers and continued to win us more shelf space from customers.

Several new models were introduced in January at the 2007 Consumer Electronics Show where our focus was on innovative design and new technology. Our design capabilities were showcased by the Digital Enhanced Cordless Telecommunications (DECT) 6.0 models, whose cutting-edge slim handsets were exceptionally well received. On the technology side, we were able to show a cordless system with Bluetooth connectivity and the infoPhone™, an Internet enabled phone that allows people to check email and information without the need to turn on a computer.

As we noted at the interim report, the European market had suffered from excess inventory, especially during the first half of the financial year. Hence, despite a pick up of sales in the second half over the first half, revenue from this market still recorded a decline as compared with the financial year 2006.

Revenue at the electronic learning products (ELP) business reached an all time high as we saw sales growth in all product ranges in all major markets. The traditional ELPs performed especially well, with a double digit sales increase. A number of new products helped boost sales, including Nitro Vision and a new line of interactive animal character play sets for toddlers, SmartVille. Nitro Notebook Pink was included in the Toys“R”Us “Fabulous 15 The Best of the Holiday Season” list.

V.Smile continued its success as a platform based product and eight new titles were added in the calendar year 2006. V.Smile Baby, targeting children between the ages of nine months and three years old, was added to the range. It appeared on the shelves in the first half of the financial year and sales have been encouraging. V.Flash, aimed at children aged six and up, got off to a slower start following its late launch in September 2006.

The contract manufacturing services (CMS) business achieved record revenue for the third year in a row as we grew our sales with existing customers. Once again, the business outperformed the global Electronic Manufacturing Services (EMS) market. The switching mode power supplies, professional audio equipment and industrial printing categories experienced particularly strong demand and marked growth was seen in the US market.

The success of the CMS business demonstrates the attraction of a complete one-stop shop service from design to execution and the very high quality levels achieved. Customer service levels improved further during the financial year as we cut order processing time significantly and again reduced the failures per million units of output (ppm).

All three businesses did well to counter cost pressures during the financial year despite high materials prices, as well as rising labour costs and overheads in China, following the appreciation of the Renminbi. Greater economies of scale, as our production volume has expanded, have mitigated these cost pressures, and we have been able to raise productivity through efficiency gains. The new plant at the city of Qingyuan in the northern part of China's Guangdong province, to which we have begun transferring some production, is also beginning to make a positive impact.

CHANGES IN DIRECTORS

Our Deputy Chairman, Mr. Albert LEE Wai Kuen, retired with effect from 1st April 2007. He has been with the Group since 1984 and I would like to express my sincere appreciation to him for his valuable contribution over two decades. He will continue to play a role as an adviser to the Group.

Following Mr. LEE's retirement, two new Executive Directors were appointed in April 2007. They are Mr. Edwin YING Lin Kwan, Group Chief Operating Officer and Mr. PANG King Fai, Group Chief Technology Officer.

The succession of good results achieved in recent years testifies to VTech's ability to develop sound business strategies and execute them well. I believe we have developed a solid foundation for future expansion.

OUTLOOK

The succession of good results achieved in recent years testifies to VTech's ability to develop sound business strategies and execute them well. I believe we have developed a solid foundation for future expansion. Despite the uncertainties of the US economy, a probable further appreciation of the Renminbi, as well as a continued rise in labour costs and components prices, we expect to achieve a similar level of profitability as in the financial year 2007.

The rise in our production volume has begun to put pressure on capacity and to ease capacity constraints and realise further economies of scale, the Group is adding manufacturing facilities. In the second quarter of the financial year 2008, a new factory building for the CMS business will open, increasing its capacity by some 50%. We also intend to build a second factory at Qingyuan, to serve the growing needs of the ELP business.

We expect the positive momentum at the TEL business to carry into the financial year 2008. Growth, however, will primarily come from Europe as the market continues to recover from the excess inventory. The North American business will be hard pressed to repeat the similar growth recorded in the financial year 2007, as the business has already rebounded from a sales decline and regained its leadership position in the market.

Despite this, our new models with innovative designs and new technology will support profitable growth in North

America. Through designs such as the DECT 6.0 models, we are successfully creating new product categories for retail customers, while technologies such as the infoPhone™ will enable us to explore new distribution channel such as service providers.

To add new avenues of growth, the TEL business will develop the small and home office market. Changing demographics, new work practices and technologies have made this a growth area, one that we have not so far addressed as a distinct segment.

Building on its strong position in Europe and increasing market share in North America, the ELP business is expected to continue to grow. The addition of the Whiz Kid Learning System™ will enable VTech to capture a position in the reading market. The V.Smile range will continue to evolve and an enhanced V.Smile console will be on the shelves in the United States in August 2007, featuring a sing-along microphone and a writing joystick. It will be joined by a new version of V.Smile Pocket that features a microphone for new games. The new version is also smaller, lighter and hence easier for children to carry. Eight new titles will be launched in the calendar year 2007 as we expand the library of cartridges.

Growth at the CMS business is expected to moderate as existing customers mature and newer customers only gradually build up orders. Nonetheless, we are confident of once again outperforming the EMS market, which is forecast to grow in the high

single digits in the calendar year 2007. We will continue to improve the service we offer to all customers and have set up a new task force to examine any cost savings that can be passed on.

Japan, a market of great potential for the CMS business, will be a focus for new business development. A dedicated Japanese client team has been set up, and we will reopen our sales office there in June 2007. Separate facilities are being set up specifically for Japanese clients, covering manufacturing, engineering and quality control.

APPRECIATION

I would like to thank my fellow directors and all staff for their efforts, which helped to make our 30th anniversary a banner year.

Although we see challenges ahead, we are taking action to address specific issues, and with the global economy still expanding at a reasonable pace, I am confident that VTech is well positioned to achieve further growth in the financial year 2008 and deliver good returns for shareholders in the years ahead.

Management Discussion and Analysis

REVENUE

The Group revenue for the year ended 31st March 2007 increased by 21.5% over the previous financial year to US\$1,463.8 million as a result of an increase in revenue from its three core businesses.

The TEL business recorded a 11.1% increase in revenue to US\$660.6 million. This performance was mainly driven by strong sales of 5.8GHz cordless phones and a range of AT&T 2.4GHz products using proprietary technology developed in-house for the North American market, which helped increase revenues from this market by 26.3% or US\$107.0 million compared with the previous financial year. Revenue from the European market, however, decreased by 25.1% or US\$42.3 million over the previous financial year because the market had suffered from excess inventory, a situation that affected all suppliers.

The ELP business had another excellent year with considerable growth in revenue, achieving a 26.2% year-on-year increase to US\$570.1 million. The growth was attributable to good performance from all ELP product ranges. The growth in revenue from traditional products range was especially strong. The V.Smile product range also continued to grow. Sales of the basic V.Smile met management expectations, while the introduction of the well-received V.Smile Baby in the first half of the financial year 2007 and the launch of V.Flash in later part of the financial year, together with the rising sales of software drove sales higher compared to the previous financial year.

For the CMS business, the strategy of providing a one-stop shop EMS service to small and medium sized customers continued to be successful, and the business achieved significant growth in revenue of 47.3% over the previous

GROUP REVENUE BY PRODUCT LINE

GROUP REVENUE BY REGION (2007)

financial year, reaching US\$233.1 million. The growth came mainly from increased orders from existing customers with demand particularly strong in the areas of switching mode power supplies, professional audio equipment and industrial printing categories.

The Group's revenue from its three core businesses was: 45.1% from the TEL business, 39.0% from the ELP business and 15.9% from the CMS business.

North America continues to be the largest market for the Group. Revenue from this market accounted for 60.2% of Group revenue for the financial year 2007. Europe and Asia Pacific accounted for 34.1% and 3.5% respectively. This change in the relative contribution of the three regions mainly reflects the sales increase from all of the

Group's businesses in North America, which more than offset the sales reduction at the TEL business in Europe while the ELP and CMS businesses also achieved satisfactory growth in Europe.

GROSS PROFIT/MARGIN

The gross profit for the financial year 2007 was US\$540.0 million, an increase of US\$93.3 million compared to the US\$446.7 million recorded in the previous financial year. Gross margin for the year declined slightly from 37.1% to 36.9%. Although all businesses suffered from the negative impacts of rising labour costs, high raw material prices and the appreciation of the Renminbi during the financial year 2007, the Group was able to maintain gross profit margin as management implemented measures to improve operational efficiency and raise productivity.

OPERATING PROFIT/MARGIN

The operating profit for the year ended 31st March 2007 was US\$194.0 million, an increase of US\$57.8 million or 42.4% over the previous financial year. The improvement mainly came from a significant increase in gross profit resulting from the overall growth in revenue at the three core businesses. The operating profit margin also improved from 11.3% in the previous financial year to 13.3% in the financial year 2007. A significant part of the improvement was attributable to the rebound at the TEL business whose contribution to the Group continued to improve in the financial year 2007.

Selling and distribution costs increased by 14.1% from US\$209.2 million in the previous financial year to US\$238.6 million in the financial year 2007. The increase was mainly due to higher spending on advertising and promotional activities at the ELP business. Royalty payments to licensors for the use of popular cartoon characters for certain ELPs and V.Smile Smartridges also increased, which was in line with increased sales of the V.Smile product range. However, selling and distribution costs as a percentage of Group revenue actually decreased from 17.4% in the previous financial year to 16.3% in the financial year 2007, owing to management's success in maintaining a tight control over operating costs.

Administrative and other operating expenses increased from US\$61.0 million in the previous financial year to US\$62.2 million in the financial year 2007. An exchange gain of US\$3.1 million was recorded under administrative and other operating expenses in the current financial year because of the appreciation of the Euro and Sterling against the US dollar. This contrasted with an exchange loss of US\$2.6 million recorded in the previous financial year. Excluding the effect of exchange differences, the

administrative and other operating expenses increased by US\$6.9 million compared to the previous financial year, partly due to an increase in employee related costs as business has expanded. The administrative and other operating expenses as percentage of Group revenue, excluding the effect of exchange differences, actually improved from 4.8% in the previous financial year to 4.5% in the financial year 2007.

Research and development (R&D) activities are vital for the long-term development of the Group. During the financial year 2007, the Group spent US\$45.2 million on R&D activities, which represented around 3% of total Group revenue.

NET PROFIT AND DIVIDENDS

The profit attributable to shareholders for the year ended 31st March 2007 was US\$182.9 million, an increase of US\$54.1 million as compared to the previous financial year. The ratios of EBIT and EBITDA to revenue were 13.3% and 14.9% respectively.

Basic earnings per share for the year ended 31st March 2007 were US76.6 cents as compared to US54.9 cents in the previous financial year. During the year, the Group declared and paid an interim dividend and a special dividend of US9.0 cents per share and US30.0 cents per share respectively, which aggregated to US\$93.2 million. The directors have proposed a final dividend of US41.0 cents per share, which will aggregate to US\$98.0 million. Excluding the special dividend, the total dividend for the year

amounted to US50.0 cents per share, representing an increase of US18.0 cents per share or 56.3% from the previous financial year.

GROUP EBITDA/REVENUE AND EBIT/REVENUE IN LAST 5 YEARS

The stock balance as at 31st March 2007 decreased by 7.2% over the balance at 31st March 2006 to US\$124.1 million. The turnover days improved from 81 days to 68 days. The decrease in stock level is mainly attributable to an improvement in supply chain management at the TEL business. The trade debtors balance as at 31st March 2007 was US\$178.7 million as compared to US\$162.9 million in the previous financial year. The turnover days were 65 days, the same as the previous financial year. The increase in trade debtors balance as at 31st March 2007 was mainly due to an increase in revenue in the fourth quarter when compared with the corresponding period of the previous financial year.

LIQUIDITY AND FINANCIAL RESOURCES

Shareholders' funds as at 31st March 2007 were US\$343.3 million, a 12.1% increase from the US\$306.2 million reported for the financial year 2006. The net assets per share increased by 12.5% from US\$1.28 to US\$1.44.

CAPITAL EXPENDITURE

For the year ended 31st March 2007, the Group invested US\$37.2 million in the construction of factory buildings, purchases of plant and machinery, equipment, computer systems and other tangible assets. All of these capital expenditures were financed with internal resources.

CAPITAL COMMITMENTS AND CONTINGENCIES

The Group expects to invest approximately US\$59 million on capital expenditure in the financial year 2008. Besides normal capital expenditure for ongoing business operations, the new R&D centre in Shenzhen, Guangdong province is under construction and is expected to be completed by the end of calendar year 2007. The Group also intends to incur further capital investment for the construction of the second manufacturing plant in the city of Qingyuan, in northern Guangdong province.

All of these capital expenditures will be financed from internal resources.

As of the financial year end date, the Group had no material contingencies.

As at 31st March 2007, the net cash increased to US\$246.5 million, up 1.7% from US\$242.4 million at the previous year-end. The Group is substantively debt-free, except for an insignificant amount in the form of a fixed-interest bearing equipment loan which is denominated in Euro and repayable within two years.

TREASURY POLICIES

The objective of the Group's treasury policies is to manage its exposure to fluctuation in foreign currency exchange rates arising from the Group's global operations. It is our policy not to engage in speculative activities. Forward foreign exchange contracts are used to hedge certain exposures.

Telecommunication Products

Revenue at the TEL business increased in the financial year 2007 and contribution to the Group improved further. North America was the key growth driver.

TEL REVENUE BY REGION (2007)

Revenue for the financial year 2007 at the TEL business rose 11.1% over the previous financial year to US\$660.6 million and contribution to the Group improved further as the rebound that began in the first half continued. The business accounted for 45.1% of Group revenue, against 49.4% in the previous financial year.

North America was the key growth driver. For the financial year 2007, revenue in North America increased by 26.3% to US\$514.3 million, representing 77.9% of the total TEL

revenue, against 68.5% in the financial year 2006.

The competitiveness of the TEL business in North America has strengthened following the rationalisation of its business operations two years ago. Better products, together with enhanced supply chain and channel management resulted in market share gains in North America. The new 5.8GHz cordless phones, together with the AT&T 2.4GHz products using proprietary technology developed in-house, were well-received by

consumers and enabled VTech to win more shelf space from retail customers.

To recognise VTech’s innovative ideas, products and pricing in growing Wal-Mart’s business, we were given the “Supplier of Excellence Award” for the fourth quarter of 2006 in the Consumer Electronics category in February 2007.

In Europe, as mentioned in the interim report, the market had suffered from excess inventory, a situation that affected all suppliers. As a result, despite a pick up of sales in the second half over the first half, sales to the region for the financial year 2007 declined 25.1% over the financial year 2006 to US\$126.2 million, accounting for 19.1% of total TEL revenue.

To ensure growth momentum is maintained, throughout the financial year, we continued to invest in the development of new products and a number of exciting models were unveiled at the Consumer Electronics Show (CES) in Las Vegas in January 2007, where our focus was on innovative design and new technology.

Our design capabilities saw the unveiling of the Digital Enhanced Cordless Telecommunications (DECT) 6.0 system. Featuring a uniquely thin, compact form factor, these phones deliver a superior level of interference-free clarity, quality, security and range in a cutting-edge design.

Building on its tradition of pioneering technology, VTech rounded out its Internet enabled and Bluetooth enabled phones. The new Internet enabled phone, infoPhone™ combines standard telephony, peer-to-peer VoIP calling and personalised content delivery in a sleek design. It allows users to check e-mail and Internet delivered content such as news, sports, weather and horoscopes through the cordless handset, without the need to turn on a computer. Recognising the increased penetration of Bluetooth enabled cellular phones, we also introduced an AT&T cordless phone with Bluetooth connectivity at affordable price point. It has been available since May 2007.

Review of Operations

Electronic Learning Products

The ELP business achieved record revenue in the financial year 2007. The growth came across the board, with good performances from all product ranges.

ELP REVENUE BY REGION (2007)

In the financial year 2007, the ELP business achieved record revenue, which increased by 26.2% as compared with the financial year 2006 to US\$570.1 million. This was equivalent to 39.0% of total Group revenue, as compared with 37.5% in the previous financial year.

The growth came across the board, with good performances from all product ranges. The traditional ELPs recorded higher sales growth than the V.Smile range, mainly driven by increased shelf space and an expanded product portfolio.

Revenue increases were apparent in all markets, with particularly strong growth in North America as VTech continued to gain shelf space in this market. Sales from the region rose by 29.2% to US\$281.2 million. In Europe, revenue grew by 21.5% over the previous financial year to US\$260.9 million and VTech maintained its leadership position in its principal markets.

In the financial year 2007, the V.Smile range entered its third year of sales. Sales of the basic console and software met management expectations. In the calendar year 2006, eight new titles

Eight new titles were added to the V.Smile software library in the calendar year 2006, bringing it to 33 in total.

were added to the library, bringing it to 33 in total.

In addition to the basic V.Smile, the range was extended in the financial year 2007 through the introduction of two new platforms, the V.Smile Baby Infant Development System™ (V.Smile Baby), aimed at children from nine months to three years old and the V.Flash Home Edutainment System™ (V.Flash), which targets those aged six and up.

Sales of V.Smile Baby have been particularly encouraging and in September, it was put on the Toys "R" Us 2006 "Hot Toy" list. Sales of V.Flash

were below management expectations due to the late launch in September 2006. Nonetheless, in October, V.Flash was named one of the Top 12 Toys of Christmas and Holiday 2006 by Wal-Mart.

Development of new products and platforms continued and they were unveiled during the toy fairs in early 2007.

The Whiz Kid Learning System™ (Whiz Kid), a new platform based product that can be connected to the computer, was introduced to capture the reading market. Whiz Kid lets children aged from three to six years enjoy interactive reading and learning activities wherever

they go through a portable and touch-sensitive stylus. Children can choose from 40 activity pages, slide the page into the pad and watch it come alive with more than 120 activities.

To refresh the original V.Smile, an enhanced console was introduced to the trade, featuring a sing-along microphone and a writing joystick. Further new software titles were unveiled, as well as two additional accessories that connect directly to the consoles. An interactive storybook, the SmartBook™ uses touch pen technology to activate animated stories and games, while the Smart Keyboard™ offers typing and word games.

Contract Manufacturing Services

The CMS business once again achieved excellent results in the financial year 2007, outperforming the global EMS industry. The growth came mainly from existing customers.

CMS REVENUE BY REGION (2007)

The CMS business once again achieved excellent results, with revenue for the financial year 2007 increasing by 47.3% over the financial year 2006 to US\$233.1 million, the third consecutive record. The business accounted for 15.9% of Group revenue, up from 13.1% in the previous financial year.

The business once again outperformed the global Electronic Manufacturing Services (EMS) industry, which grew by some 13.5%* during the calendar

year 2006. Although some new customers were acquired, the growth in revenue came primarily from existing customers, especially in the areas of switching mode power supplies, professional audio equipment and industrial printing. Particularly strong demand was experienced from customers in the United States and hence this market grew its share of total CMS revenue markedly from the 29.5% recorded in the previous financial year.

**Source: Manufacturing Market Insider – December 2006 issue*

The CMS business received four awards from its customers, in recognition of its outstanding service.

Switching mode power supplies and professional audio equipment continued to be the leading product categories, accounting for 28.2% and 27.7% of total CMS revenue respectively, followed by communications products and home appliances. Europe remained the leading source of revenue, representing 48.4% of total CMS revenue, followed by North America at 36.6% and Asia Pacific at 15.0%.

To cope with the growing demand, the business added a new factory building at its existing plant in Liaobu town, Dongguan city. The new facility will increase the capacity of the business by some 50% and will begin operations in the second quarter of the financial year 2008.

While adding capacity to cater for business growth, the business moved aggressively to counter the effects of cost pressures. Materials prices rose sharply and unlike in previous years, the Group was unable to offset these rises through improved contract terms with material suppliers. Additional cost pressures came from the continued rise in the Renminbi and wages in southern China. These factors were largely offset by economies of scale and improved productivity. Among the improvements, a realignment of production reduced the manufacturing cycle time, lowering overtime payments, electricity consumption and equipment downtime.

Efforts were also made to improve service levels, despite the surge in production volumes and cost controls. Order processing time was improved by 50%. Outgoing quality level, as measured by failures per million units of output (ppm), improved to within a range of 250 – 750 ppm. The business received four awards from its customers in the field of professional audio equipment, communications products and medical products during the financial year 2007, in recognition of its outstanding service and the high level of support given to the customers' business development.

Investor Communications

VTech adopts a proactive investor relations and communications programme to keep investors and shareholders up to date on the Group's latest developments and we encourage them to make suggestions for improvement. During the financial year 2007, we held one-on-one meetings with investors, site visits to our manufacturing facilities in mainland China and participated in investor conferences.

Key financial announcements are webcast, accompanied by the detailed slide presentations and other important financial information. The Group's quarterly newsletter outlines the latest products and marketing initiatives by the Group's businesses. Up-to-date information on the Group's development, financial data and stock information are available at the corporate website www.vtech.com. All key information can be downloaded.

VTECH AND OUR EMPLOYEES

The average number of employees for the financial year 2007 was 28,200, an increase of 15.1% from 24,500 in the previous financial year. Employee costs for the year ended 31st March 2007 were approximately US\$138 million, as compared to approximately US\$115 million in the financial year 2006.

Employment Policy

VTech's policy is to employ, retain, promote, terminate and treat all employees on the basis of merit, qualifications and competence. The Group creates a favourable work environment in which all employees can enjoy equal opportunities at work and avoid discrimination on the grounds of age, sex, status, disability or any other non-job related factor.

The Group has an incentive bonus scheme and a share option scheme for its employees, with benefits determined based on the performances of the Group and individual employees.

Communications and Personal Development

VTech uses the latest technology to engage in dialogue with employees at all levels, including an intranet and interactive webcasts. Training is provided to build skills and competencies. Staff members regularly attend internal training courses and may apply for external training sponsorships.

Celebrating at Work

Each year, VTech organises social events for its employees across the world, helping to foster a team spirit, promote life balance and enhance motivation.

During the financial year 2007, the 30th anniversary was celebrated by a logo contest open to staff worldwide and a fun-filled outing to Ocean Park for Hong Kong staff, with similar outings elsewhere. Life balance was promoted through yoga classes, a sports month and participation in the annual dragon boat races. Employees also participated in the Standard Chartered Hong Kong Marathon 2007, for the sixth consecutive year.

VTech AND OUR COMMUNITIES

VTech is a pioneer in the telecommunication products and electronic learning products industries. With a corporate culture rooted in "Innovation and Technology", the Group focuses its philanthropic efforts on initiatives supporting education, innovation and technology.

Community Support

During the financial year 2007, we supported Business of Design Week in Hong Kong, an event to promote the use and value of good design. In mainland China, we supported Race to Feed 2006, organised by Heifer International Hong Kong. Our donation funded Heifer projects in China's rural areas.

In Europe, we lent a helping hand to the French charity "Un regard, un enfant" (one look, one child), donating 20,000 Euros to support the education of underprivileged children in developing countries.

In North America, we joined CBS' annual "Wishes for Kids" toy drive by donating 200 V.Flash units to needy children.

VTech AND THE ENVIRONMENT

VTech regards care for the environment and making a positive contribution to tackle climate change as an important part of its corporate social responsibility. Throughout our operations worldwide, we encourage waste reduction, environmentally sound processes, energy efficiency and recycling.

Our plants and offices have comprehensive programmes in place to recycle materials used in the production and administrative process, to increase energy efficiency and to minimise the production of waste, as well as handle waste in an environmentally responsible manner.

Our products and packaging are designed to comply with the highest standards of environmental legislation or guidelines, such as RoHS in Europe and Energy Star in the United States, using recyclable materials where possible. Consumers are also encouraged to recycle their products and to dispose of them in an environmentally appropriate manner.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

VTech Holdings Limited is incorporated in Bermuda. The Company has its primary share listing on The Stock Exchange of Hong Kong Limited ("the Hong Kong Stock Exchange") and London Stock Exchange Plc. The primary corporate governance rules applicable to the Company is the Code on Corporate Governance Practices (the "Code") as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"). Throughout the year ended 31st March 2007, the Company has complied with all the code provisions of the Code and to a large extent, the recommended best practices in the Code except for the deviation from code provision A.2.1 of the Code as described below:

Under code provision A.2.1 of the Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Mr. Allan WONG Chi Yun has the combined role of Chairman and Group Chief Executive Officer. The Board of Directors (the "Board") considers that this structure will not impair the balance of power and authority between the Board and the management of the Group as the non-executive directors form the majority of the Board of which four out of seven are independent. The Board believes the appointment of Mr. Allan WONG to the posts of Chairman and Group Chief Executive Officer is beneficial to the Group as he has considerable industry experience.

The Company is not subject to the Combined Code on Corporate Governance under the Listing Rules of the Financial Services Authority in the United Kingdom (the "UK Listing Rules") that applies to United Kingdom incorporated companies.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Codes as set out in Appendix 10 of the Listing Rules and Annex 1 to Rule 9 of the UK Listing Rules regarding securities transactions by directors and senior management in relation to

the accounting period covered by the Annual Report. After specific enquiry, all directors of the Company confirmed that they have complied with the required standard of dealings set out therein throughout the year.

BOARD OF DIRECTORS

The Board currently comprises three executive directors and four independent non-executive directors. The names and brief biographies are set out on page 20 of this report. Due to personal reasons, Mr. Albert LEE Wai Kuen resigned as Deputy Chairman with effect from 1st April 2007. The non-executive directors are high calibre executives with diversified industry expertise and bring a wide range of skills and experience to the Group. They bring independent judgement on issues of strategy, performance, risk and people through their contribution at Board meetings. The Board considers that four non-executive directors, being the majority of the Board, are independent in character and judgement and they also meet the independence criteria set out in Rule 3.13 of the Listing Rules. All non-executive directors are appointed for a specific term of three years and all directors are required to submit themselves for re-election at least once

The attendance of individual members of the Board and other Board Committees during the financial year is set out below:

	Meetings attended/Eligible to attend		
	Board	Audit Committee	Remuneration Committee
Executive Directors			
Allan WONG Chi Yun	4/4	–	–
Albert LEE Wai Kuen	4/4	–	–
Independent Non-Executive Directors			
Raymond CH'EN Kuo Fung	3/4	2/2	1/1
William FUNG Kwok Lun	2/4	1/2	0/1
Michael TIEN Puk Sun	3/4	2/2	1/1
Patrick WANG Shui Chung	2/4	–	–

BOARD COMMITTEES

The Board has established four committees with specific responsibilities as described below. The terms of reference of the Remuneration Committee, Nomination Committee and Audit Committee are posted on the Company's website.

Remuneration Committee

The Remuneration Committee is chaired by Mr. Michael TIEN Puk Sun with Mr. Raymond CH'EN Kuo Fung

every three years under the Company's Byelaws. In accordance with the Company's Byelaws, each new director appointed by the Board shall hold office until the next following annual general meeting and thereafter the directors will be subject to retirement by rotation.

The Board has received from each independent non-executive director a written annual confirmation of independence pursuant to Rule 3.13 of the Listing Rules.

The Board's focus is on the formulation of business strategy and policy, and control. Matters reserved for the Board are those affecting the Company's overall strategic policies, finances and shareholders. These include: preliminary announcements of interim and final results, dividend policy, the annual budgets, major corporate activities such as material acquisitions and disposals, and connected transactions.

Four Board meetings at approximately quarterly interval are scheduled for 2007/08 with other meetings as necessary to deal with urgent matters. All Directors have access to the advice and services of the Company Secretary and independent professional advice may be taken by the Directors as required.

and Mr. William FUNG Kwok Lun as members, all of whom are independent non-executive directors. It is responsible for reviewing and recommending all elements of the executive directors and senior management remuneration. The fees of the non-executive directors are determined by the Board.

The Remuneration Committee met once during the year and reviewed the Group's remuneration policy and the remuneration package of the executive directors and senior management.

Nomination Committee

The Nomination Committee is chaired by Mr. William FUNG Kwok Lun with Mr. Patrick WANG Shui Chung and Mr. Allan WONG Chi Yun as members. Mr. Raymond CH'EN Kuo Fung and Mr. Michael TIEN Puk Sun were appointed as additional committee members in April 2007. The majority of the members of the Nomination Committee are independent non-executive directors. It is responsible for reviewing the Board composition and identifying and nominating candidates for appointment to the Board such that it has the required blend of skills, knowledge and experience.

The Nomination Committee was established on 21st June 2006 and did not hold any meeting during the financial year.

The Nomination Committee met once in April 2007 and considered the appointments of Mr. Edwin YING Lin Kwan and Mr. PANG King Fai to the Board as executive directors.

Audit Committee

The Audit Committee is chaired by Mr. Raymond CH'EN Kuo Fung with Mr. William FUNG Kwok Lun and Mr. Michael TIEN Puk Sun as members, all of whom are independent non-executive directors. It has been established to assist the Board in fulfilling its oversight responsibilities for financial reporting, risk management and evaluation of internal controls and auditing processes. It also ensures that the Group complies with all applicable laws and regulations.

Mr. Raymond CH'EN is the Chairman of the Audit Committee and has the appropriate financial management expertise as required under the Listing Rules. The Audit Committee held two meetings during the year. It reviewed the work done by internal and external auditors, the relevant fees and terms, reports from external auditors in relation to the interim and annual financial statements, and receives regular reports from the internal audit functions in accordance with the Committee's term of reference. The meetings were attended by the Chairman, Chief Compliance Officer, Chief Financial Officer and external auditors.

Auditors' Remuneration

An analysis of remuneration in respect of audit and non-audit services provided by KPMG, the auditors, is shown in note 2 to the financial statements.

Risk Management Committee

The Risk Management Committee, comprising the executive directors, held two meetings during the year to review the Group's risk management and internal control systems.

RESPONSIBILITIES IN RESPECT OF FINANCIAL STATEMENTS

The Board is responsible for presenting a balanced, clear and understandable assessment of annual and interim reports, price-sensitive announcements and other disclosures required under the Listing Rules and other regulatory requirements.

The Directors acknowledge their responsibility to prepare the financial statements as set out on page 29. The statement of the external auditors about their reporting responsibilities on the financial statements is set out on page 29.

INTERNAL CONTROLS

The Directors have the overall responsibility for internal control, including risk management, and sets appropriate policies having regard to the objectives of the Group. The Directors, through the Audit Committee, have conducted an annual review of the effectiveness of the Group's system of financial and non-financial controls. The system of internal control is designed to manage rather than eliminate the risk of failure to achieve business objectives and can only provide reasonable and not absolute assurance against material misstatement or loss. Controls are monitored by management review and by a programme of internal audits.

The Audit Committee reviews the effectiveness of the internal control environment of the Group. The Internal Audit Department carries out annual risk assessment on each audit area and derives an annual audit plan according to their risk rankings. The audit plan is reviewed and agreed by the Audit

Committee. In addition to the agreed schedule of work, the Internal Audit Department conducts other review and investigative work as may be required. The Audit Committee receives summary reports from the internal and external auditors periodically. The results of internal audit reviews and responses to the recommended corrective actions are reported to the Executive Directors and Audit Committee. The Internal Audit Department is also responsible for following up the corrective actions to ensure that satisfactory controls are maintained. The Audit Committee considered that the key areas of the corrective action were reasonably implemented.

The Group has put in place an organisational structure with formal defined lines of responsibility and delegation of authority. There are also established procedures for planning, capital expenditure, treasury transactions, information and reporting systems, and for monitoring the Group's businesses and their performance.

WHISTLEBLOWER POLICY

The Group maintains a whistleblower policy to facilitate the raising of concerns by employees. Procedures are established for employees to report complaints and internal malpractice directly to the Chief Compliance Officer, who will review complaints and determine the mode of investigation and subsequent corrective action. Recommendations on improvements are communicated to the respective departments senior management for implementation. The Chief Compliance Officer reports the results of their review of the complaints received to the Audit Committee twice a year.

CODE OF CONDUCT

Employees are required to strictly follow the Code of Conduct to ensure the Group operates to the highest standards of business conduct and ethics in our dealings with customers, business partners, shareholders, employees, and the business communities. Every employee is provided a copy of the Code of Conduct and they are required to confirm compliance with the Code in writing each year.

Note: As one of the conditions of grant, the grantee concerned agreed with the Company that the options granted shall not be exercisable within the period of 36 months from the date on which such options were accepted and shall not be exercisable after 60 months from the date on which such options were accepted.

DIRECTORS' INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES (continued)

(2) Share Options of the Company (continued)

Save as disclosed above, as at 31st March 2007, none of the directors and chief executive of the Company has any interest or short position in shares, underlying shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) which were required to be recorded in the register kept by the Company pursuant to Part XV of the SFO or pursuant to the Model Codes for Securities Transactions by Directors of Listed Issuers contained in the Listing Rules or which were required to be notified the issuer pursuant to Rule 3 of DTR of the FSA.

DIRECTORS' INTERESTS IN CONTRACTS

Save for the lease described under the paragraph headed "Continuing Connected Transaction", no contracts of significance in relation to the Group's business to which the Company or its subsidiaries was a party and in which a director of the Company had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

SUBSTANTIAL SHAREHOLDINGS

As at 31st March 2007, according to the register maintained by the Company under Section 336 of the SFO and the record of notification made pursuant to Rule 5 of DTR of the FSA and in so far as is known to the Company, the parties, (other than the directors and chief executive of the Company), who held 3% or more equity interest in the issued share capital of the Company, together with the amount of each of such parties' interests were as follows:

Name of shareholder	Capacity	Number of shares held	Approximate percentage of shareholding

CHEAH Cheng Hye	Interest of controlled corporation <i>(Notes 2 & 3)</i>	19,530,000	8.2%
Twin Success Pacific Limited	Beneficial owner <i>(Notes 1 & 3)</i>	7,188,603	3.0%

Note 1: The shares were held as to 1,416,325 directly by Honorex Limited ("Honorex"), as to 65,496,225 directly by Conquer Rex Limited ("Conquer Rex") and as to 7,188,603 directly by Twin Success Pacific Limited ("Twin Success"). Conquer Rex was a wholly-owned subsidiary of Honorex. Each of Conquer Rex, Honorex and Twin Success was a wholly-owned subsidiary of Trustcorp Limited as the trustee of The Wong Chung Man 1984 Trust, a discretionary trust of which Mr. Allan WONG Chi Yun ("Mr. WONG"), a director of the Company, was the founder. Trustcorp Limited was therefore deemed to have an aggregate indirect interest in 74,101,153 shares. Honorex was also deemed to have an indirect interest in the 65,496,225 shares. Mr. WONG's founder interests in the 74,101,153 shares of the Company has also been disclosed under the section headed "directors' interests and short positions in shares, underlying shares and debentures" above. Trustcorp Limited was wholly owned by Newcorp Limited which was in turn wholly owned by Newcorp Holdings Limited. Each of Mr. David Henry Christopher HILL and Mr. David William ROBERTS was deemed to be interested in such shares through its 35% interest in Newcorp Holdings Limited. Ms. Rebecca Ann HILL, being the spouse of Mr. David Henry Christopher HILL, was deemed to be interested in such shares by virtue of SFO.

Note 2: Mr. CHEAH Cheng Hye is deemed to be interested in such shares through his 35.65% interest in Value Partners Limited.

Note 3: All the interests stated above represent long position.

SUBSTANTIAL SHAREHOLDINGS (continued)

Save as disclosed above, the Company has not been notified by any person (other than the directors or chief executive of the Company) who had interests or short positions in shares, underlying shares and debentures of the Company as at 31st March 2007 which were required to be disclosed to the Company under Part XV of the SFO, or which were recorded in the register required to be kept by Company under Section 336 of the SFO or which were required to be notified pursuant to Rule 5 of DTR of the FSA.

PUBLIC FLOAT

Based on the information publicly available, the Company has maintained at least 25% of the total issued share capital of the Company to be held by the public at all times during the year ended 31st March 2007 and up to the date of this report.

MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the year.

SECURITIES PURCHASE ARRANGEMENTS

At the annual general meeting held on 11th August 2006, shareholders renewed the approval of a general mandate authorizing the directors to effect repurchases of the Company's own shares up to a limit of 10% of the shares in issue as at that date.

PURCHASE, SALE OR REDEMPTION OF LISTED SHARES

The Company has not redeemed any of its shares during the year. Neither the Company nor any of its subsidiaries has purchased or sold any of the Company's shares during the year.

MAJOR CUSTOMERS AND SUPPLIERS

For the year ended 31st March 2007, the aggregate amount of purchases attributable to the Group's five largest suppliers represented less than 30% of the Group's total value of purchases. The Group's largest customer accounted for approximately 18.2% of the Group revenue and the Group's five largest customers in aggregate accounted for approximately 39.5% of the Group revenue during the year. None of the directors, their associates or any shareholder (who, to the knowledge of the directors, owns more than 5% of the Company's share capital) had an interest in the customers and the suppliers noted above.

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Bye-laws of the Company and there are no statutory restrictions against such rights under the laws of Bermuda in which the Company is incorporated.

SHARE OPTION SCHEME

The Company operates share option scheme for the purposes of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of these share option schemes include executive directors and employees of the Company and its subsidiaries. On 10th August 2001, the Company adopted a share option scheme (the "2001 Scheme") under which the directors may, at their discretion, at any time during the 10 years from the date of adoption of the 2001 Scheme, invite employees of the Company and any subsidiaries of the Group, including executive directors (but excluding non-executive directors) to take up shares of the Company in accordance with the terms of the 2001 Scheme.

Details of the 2001 Scheme are set out in note 16 to the financial statements.

CONTINUING CONNECTED TRANSACTION

On 6th April 2005, the Company as tenant renewed a lease (the "Lease") with Aldenham Company Limited ("Aldenham") as landlord for the lease of the premises situated at Bowen Road, Hong Kong for 2 years commencing 1st April 2005 and expiring on 31st March 2007 at a monthly rental of HK\$250,000 for the purpose of providing housing to Mr. Allan WONG Chi Yun ("Mr. WONG"), a director, chief executive and a substantial shareholder of the Company. Aldenham is a wholly indirect subsidiary of a trust in which the family members of Mr. WONG are beneficiaries. Aldenham is therefore a connected person of the Company as ascribed by the Listing Rules and the Lease constituted a continuing connected transaction under Rule 14A.34 of the Listing Rules.

The independent non-executive directors of the Company have reviewed the continuing connected transaction and confirmed that the transaction has been (i) entered into in the ordinary and usual course of business of the Group; (ii) either on normal commercial terms or terms no less favourable to the Group than terms available to or from independent third parties; and (iii) in accordance with the lease agreement governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The auditors of the Company have also confirmed that for the year ended 31st March 2007, the continuing connected transaction (i) has received the approval of the Board; and (ii) has been entered into in accordance with the relevant agreement governing the transaction, and (iii) has not exceeded the cap disclosed in the related announcement.

The Company announced that on 11th April 2007 the Lease has been renewed for another two years commencing on 1st April 2007 and which constituted a continuing connected transaction of the Company under the Listing Rules with the same principal terms of the Lease as described above.

ANNUAL GENERAL MEETING

The following special business will be proposed at the annual general meeting to be held on 3rd August 2007:

1. the grant to the directors of the Company of a general mandate to repurchase shares representing up to 10% of the issued share capital of the Company as at the date of the annual general meeting;
2. the grant to the directors of the Company of a general mandate to allot, issue and otherwise deal with shares representing up to 10% of the issued share capital of the Company as at the date of the annual general meeting; and
3. the grant to the directors of a general authority to allot, issue and otherwise deal with shares of the aggregate amount of the shares repurchased under the repurchase mandate.

The Directors believe that an authority given to the Directors to allot and issue shares and to repurchase shares would give the Company additional flexibility that would be beneficial. As for the repurchase mandate, the Directors would only make a repurchase in circumstances where they consider it to be in the best interests of the Company and in circumstances where they consider that the shares can be repurchased on favourable terms.

AUDITORS

The financial statements have been audited by KPMG, who retire and, being eligible, offer themselves for re-appointment at the forthcoming annual general meeting of the Company. A resolution for the re-appointment of KPMG as auditors of the Company will be proposed at the forthcoming annual general meeting of the Company.

Independent Auditor's Report

To the Shareholders of VTech Holdings Limited

(Incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of VTech Holdings Limited ("the Company") set out on pages 30 to 52 which comprise the consolidated and company balance sheets as at 31st March 2007, and the consolidated income statement, the consolidated statement of changes in shareholders' funds and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation and the true and fair presentation of these financial statements in accordance with International Financial Reporting Standards promulgated by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with International Standards on Auditing as promulgated by the International Federation of Accountants. Those standards require that

we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Company and of the Group as of 31st March 2007 and of the Group's profit and cash flows for the year then ended in accordance with International Financial Reporting Standards promulgated by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance and the Bermuda Companies Act 1981.

PRINCIPAL ACCOUNTING POLICIES

A Principal Activities and Organisation

The Group's principal activities and separable segments are set out in note 1 to the financial statements.

The Company was incorporated in Bermuda. In view of the international nature of the Group's operations, the financial statements are presented in United States dollar.

B Statement of Compliance

The accompanying financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board. IFRS includes International Accounting Standards ("IAS") and related Interpretations. These financial statements also comply with the disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Bermuda Companies Act 1981.

The accounting policies described in note (C) to (Y) have been consistently applied by the Group.

C Basis of Preparation of the Financial Statements

These financial statements are prepared on the historical cost basis as modified by the revaluation of certain properties.

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements and accounting estimates made by management in the application of IFRS that have a significant effect on the financial statements are described in note 25.

PRINCIPAL ACCOUNTING POLICIES (continued)

D Basis of Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries together with the Group's share of the results and retained post acquisition reserves of its associates under the equity method of accounting drawn up for the year ended 31st March. All significant inter-company balances and transactions and any unrealised gains arising from inter-company transactions are eliminated on consolidation.

Subsidiaries are those entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases, and the share attributable to minority interests is deducted from or added to profit after taxation. Investments in subsidiaries are stated at cost less impairment losses (see note (K)) in the Company's balance sheet.

Associates are those entities, not being subsidiaries, in which the Group exercises significant influence, but not control, over the financial and operating policies. The consolidated financial statements include the Group's share of the total recognised gains and losses of associates under the equity method, from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds the carrying amount of the associate, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred obligations in respect of that associate. Investments in associates are stated at cost less impairment losses (see note (K)) in the Company's balance sheet.

E Revenue Recognition

Revenue from the sale of goods is recognised in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. Revenue is stated net of sales taxes and discounts, after eliminating sales within the Group.

Revenue from the provision of services is recognised when the services are rendered.

Interest income is recognised on a time-apportioned basis that takes into account the effective yield on the asset. Dividend income is recognised when the Group's right to receive payment is established.

F Research and Development

Research and development costs comprise all costs that are directly attributable to research and development activities or that can be allocated on a reasonable basis to such activities.

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

Expenditure on development activities is capitalised only if the product or process is clearly defined, technically and commercially feasible, the attributable expenditure is separately identifiable and the Group has sufficient resources and the intention to complete development. The expenditure capitalised includes the cost of materials, direct labour and an appropriate proportion of overheads which are directly attributable to development activities. Capitalised development costs are stated at cost less accumulated amortisation and impairment losses (see note (K)). Development expenditure that does not meet the above criteria is recognised as an expense in the period in which it is incurred.

Amortisation is calculated to write off capitalised development costs on a straight-line basis over their estimated useful lives, commencing from the date when the products are put into commercial production.

G Foreign Currencies

Transactions denominated in foreign currencies are translated into United States dollars at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into United States dollars at the rates of exchange ruling at the balance sheet date. Income statements of foreign entities are translated into the Group's reporting currency at average exchange rates for the year and balance sheets are translated at the exchange rates ruling at the balance sheet date.

Net exchange differences arising from the translation of the financial statements of subsidiaries and associates expressed in foreign currencies are taken directly to exchange reserve. All other exchange differences are dealt with in the income statement.

H Intangible Assets

Intangible assets that are acquired by the Group are carried at cost less any accumulated amortisation and any impairment losses (see note (K)). Amortisation commences from the date when the developed product is available for use.

PRINCIPAL ACCOUNTING POLICIES (continued)

I *Tangible Assets and Depreciation*

Land and buildings are stated at cost or valuation performed by professional valuers every three years less amounts provided for depreciation except in the case of freehold land which is not depreciated. In the intervening years the directors review the carrying value and adjustment is made where there has been a material change. The valuations are on an open market value basis and are incorporated in the financial statements. Increases in valuation are credited to the revaluation reserve; decreases are first set off against increases on earlier valuations in respect of the same assets and thereafter are charged to the consolidated income statement. Upon the disposal of a revalued property, the relevant portion of the realised revaluation reserve in respect of previous revaluations is transferred from revaluation reserve to revenue reserve.

All other tangible assets are stated at cost less accumulated depreciation and impairment losses (see note (K)).

Gains or losses arising from the retirement or disposal of tangible assets are determined as the difference between the estimated net disposal proceeds and the carrying amount of the assets and are recognised in the income statement on the date of retirement or disposal.

Depreciation is calculated to write off the cost or revalued amount of assets on a straight-line basis over their estimated useful lives which are as follows:

Long-term leasehold buildings	Lease term
Freehold buildings, short-term leasehold buildings and leasehold improvements	10 to 30 years or lease term, if shorter
Machinery and equipment	3 to 5 years
Computers, motor vehicles, furniture and fixtures	3 to 7 years
Moulds	1 year

J *Leases*

Leases of property, plant and equipment in terms of which that the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Property, plant and equipment acquired by way of finance lease is stated at an amount equal to the lower of its fair value and the present value of the minimum lease payments at inception of the lease less accumulated depreciation and impairment losses

(see note (K)). Finance charges are charged to the income statement in proportion of the capital balances outstanding.

Leases of assets under which all the benefits and risks of ownership are effectively retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

Leasehold land payments are up-front payments to acquire long-term leasehold interests in land. These payments are stated at cost and are amortised on a straight-line basis over the respective period of the leases.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which the termination takes place.

K *Impairment of Assets*

The carrying amounts of the Group's assets including property, plant and equipment and other non-current assets, including goodwill and other intangible assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the income statement.

The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discounted rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

PRINCIPAL ACCOUNTING POLICIES (continued)

L Construction in Progress

Construction in progress represents buildings under construction and is stated at cost less impairment losses (see note (K)). Cost comprises the construction costs of buildings.

Construction in progress is transferred to leasehold buildings when the assets are completed and put into operational use and depreciation will be provided at the appropriate rates in accordance with the depreciation policies specified in note (I).

No depreciation is provided in respect of construction in progress.

M Other Investments

Other investments held by the Group are stated at fair value, with any resultant gain or loss being recognised in the income statement. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is recognised to the income statement as they arise.

N Stocks

Stocks are stated at the lower of cost and net realisable value. Cost is calculated on the weighted average or the first-in-first-out basis, and comprises materials, direct labour and an appropriate share of production overheads. Net realisable value is the estimated selling price in the ordinary course of business, less estimates of costs of completion and selling expenses.

O Trade and Other Debtors

Trade and other debtors are initially recognised at fair value and thereafter stated at amortised cost less allowances for doubtful debts, except where the debtors are interest-free or the effect of discounting would be immaterial. In such cases, the debtors are stated at cost less allowances for doubtful debts. An allowance is made for doubtful debts based upon the evaluation of the recoverability of these outstanding amounts at the balance sheet date. Bad debts are written off in the income statement during the year in which they are identified.

P Cash and Cash Equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise cash on hand, demand deposits with banks and other financial institutions, short-term highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value and which have a maturity of three months or less at acquisition. Bank overdrafts that are repayable

on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents.

For the purpose of the balance sheet, cash and cash equivalents are cash on hand, deposits with banks and other financial institutions, which are not restricted in its use. Bank overdrafts are included in borrowings in current liabilities.

Q Trade and Other Creditors

Trade and other creditors are initially recognised at fair value and thereafter stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

R Provisions and Contingent Liabilities

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of past events, and it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

The Group recognises the estimated liability on expected return claims with respect to products sold. This provision is calculated based on past experience of the level of repairs and returns.

The Group provides for expenses related to closure of business locations and reorganisations of the Group's operations which are subject to detailed formal plans that are under implementation or have been communicated to those affected by the plans.

The Group recognises the expected costs of accumulating compensated absences when employees render a service that increases their entitlement to future compensated absences, measured as the additional amount that the Group expects to pay as a result of the unused entitlement that has accumulated at the balance sheet date.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

PRINCIPAL ACCOUNTING POLICIES (continued)

S *Income Tax*

Income tax comprises current and deferred tax. Current tax is calculated on taxable income by applying the applicable tax rates. Deferred tax is provided using the balance sheet liability method in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purpose. Deferred tax is calculated on the basis of the enacted tax rates that are expected to apply in the period when the asset is being realised or the liability is settled.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

Provision for withholding tax which could arise on the remittance of earnings retained overseas is only made where there is a current intention to remit such earnings.

T *Employee Benefits*

The Group operates a number of defined contribution retirement schemes throughout the world, including Hong Kong, and a defined benefit retirement scheme in Hong Kong. The assets of all schemes are held separately from those of the Company and its subsidiaries.

(i) *Defined contribution plans*

Contributions to the defined contribution schemes are at various funding rates that are in accordance with the local practice and regulations. Contributions relating to the defined contribution schemes are charged to the income statement as incurred.

(ii) *Defined benefit plans*

For long-term employee benefits, pension costs arising under the defined benefit scheme are assessed using the projected unit credit method. Under this method, the cost of providing pensions is charged to the income statement so as to spread the regular cost over the service lives of employees in accordance with the advice of qualified actuaries who carry out a full valuation of the plan every year. Plan assets are measured at fair value. Pension obligations are measured as the present value of the estimated future cash flows of benefits derived from employee past service, with reference to market yields on high quality corporate bonds which have terms to maturity approximating the terms of the related liability. All actuarial gains and losses are spread forward over the average remaining service lives of employees. The net assets or liabilities resulting from the valuation of the plan are recognised in the Group's balance sheet.

(iii) *Equity and equity related compensation benefits*

The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a capital reserve within equity. The fair value is measured at grant date using the Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to the share options, the total estimated fair value of the share option is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any adjustment to the cumulative fair value recognised in prior years is charged/credited to the consolidated income statement for the year of the review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the capital reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of share options that vest (with a corresponding adjustment to the capital reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the capital reserve until either the option is exercised (when it is transferred to the share premium account) or the option expires (when it is released directly to revenue reserves).

U *Financial Instruments*

The Group's activities expose it to financial risks of changes in foreign currency exchange rates and interest rates. The Group uses foreign exchange forward contracts and interest rate swap contracts to hedge certain exposures.

The use of financial derivatives is governed by the Group's policies approved by the Board of Directors, which provide written principles on the use of financial derivatives.

Derivative financial instruments are initially recognised in the balance sheet at cost and subsequently are remeasured at their fair value. The method of recognising the resulting gain or loss is dependent on the nature of the item being hedged. On the date a derivative contract is entered into, the Group designates certain derivatives as either a hedge of the fair value of a recognised asset or liability (fair value hedge), a hedge of a forecasted transaction or of a firm commitment (cash flow hedge), or a hedge of a net investment in a foreign entity.

PRINCIPAL ACCOUNTING POLICIES (continued)

U Financial Instruments (continued)

Changes in the fair value of derivatives that are designated and qualify as fair value hedges and that are highly effective, are recorded in the consolidated income statement, along with any changes in the fair value of the hedged asset or liability that is attributable to the hedged risk.

Changes in the fair value of derivatives that are designated and qualify as cash flow hedges and that are highly effective, are recognised in the hedging reserve. Where the forecasted transaction or firm commitment results in the recognition of an asset or of a liability, the gains and losses previously deferred in hedging reserve are transferred from hedging reserve and included in the initial measurement of the cost of the asset or liability. Otherwise, amounts deferred in hedging reserve are transferred to the consolidated income statement and classified as revenue or expense in the same periods during which the hedged firm commitment or forecasted transaction affects the consolidated income statement.

If certain derivative transactions, while providing effective economic hedges under the Group's policies, do not qualify for hedge accounting under the specific rules in IAS 39, "Financial Instruments: Recognition and Measurement", changes in the fair value of these derivative instruments are recognised immediately in the consolidated income statement.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting under IAS 39, any cumulative gain or loss existing in the hedging reserve at that time remains in the hedging reserve and is recognised, when the committed or forecasted transaction ultimately is recognised in the consolidated income statement. However, if a committed or forecasted transaction is no longer expected to occur, the cumulative gain or loss that was reported in the hedging reserve is immediately transferred to the consolidated income statement.

The Group documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as risk management objective and strategy for undertaking various hedge transactions.

V Borrowings

Borrowings are recognised as the proceeds are received, net of transaction costs incurred.

W Dividends

Dividends proposed or declared after the balance sheet date are not recognised as a liability at the balance sheet date.

X Segment Reporting

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Y Related Parties

For the purposes of these financial statements, a party is considered to be related to the Group if:

- (i) the party has the ability, directly or indirectly through one or more intermediates, to control the Group or exercise significant influence over the Group in making financial and operating policy decisions, or has joint control over the Group;
- (ii) the Group and the party are subject to common control;
- (iii) the party is an associate of the Group or a joint venture in which the Group is a venturer;
- (iv) the party is a member of key management personnel of the Group or the Group's parent or a close family member of such an individual or is an entity under the control, joint control or significant influence of such individuals;
- (v) the party is a close family member of a party referred to in (i) or is an entity under the control, joint control or significant influence of such individuals; or
- (vi) the party is a post-employment benefit plan which is for the benefit of employees of the Group or of any entity that is a related party of the Group.

Close family members of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

1 SEGMENT INFORMATION

Revenue represents turnover of the Group derived from the amounts received and receivable for sale of goods and rendering of services to third parties.

The principal activity of the Group is the design, manufacture and distribution of consumer electronic products. The telecommunication and electronic products business is the principal business segment of the Group.

The final dividend proposed after the balance sheet date has not been recognised as a liability at the balance sheet date.

6 EARNINGS PER SHARE

The calculations of basic and diluted earnings per share are based on the Group's profit attributable to shareholders of US\$182.9 million (2006: US\$128.8 million).

The basic earnings per share is based on the weighted average of 239.0 million (2006: 234.4 million) ordinary shares in issue during the year. The diluted earnings per share is based on 243.6 million (2006: 236.9 million) ordinary shares which is the weighted average number of ordinary shares in issue during the year after adjusting for the number of dilutive potential ordinary shares under the employee share option scheme.

The Group undertakes to repair or replace items that fail to perform satisfactorily in accordance with the terms of the sale. A provision is recognised for expected return claims, which included cost of repairing or replacing defective goods, loss of margin and cost of materials scrapped, based on past experience of the level of repairs and returns.

15 PENSION SCHEMES

The Group operated a defined benefit scheme and a defined contribution scheme in Hong Kong. The defined contribution scheme operated in Hong Kong complied with the requirements under the Mandatory Provident Fund ("MPF") Ordinance. For the defined contribution schemes operated for overseas employees and Hong Kong employees under the MPF Ordinance, the retirement benefit costs expensed in the income statement amounted to US\$1.8 million (2006: US\$1.8 million) and US\$0.3 million (2006: US\$0.2 million) respectively. For the defined benefit scheme ("the Scheme") operated for Hong Kong employees, contributions made by the Group during the year were calculated based on advice from Watson Wyatt Hong Kong Limited ("Watson Wyatt"), independent actuaries and consultants. The Scheme is valued annually. The latest actuarial valuation was completed by Watson Wyatt as at 31st March 2007 using the projected unit credit method.

For the defined benefit scheme, the amounts recognised in the balance sheet are as follows:

Note: Subsequent to the balance sheet date and up to 20th June 2007, the issued and fully paid share capital of the Company was increased to 240,412,133 ordinary shares upon the exercise of 1,300,000 share options since April 2007.

Share Options

Pursuant to the share option scheme adopted on 10th August 2001 (the "2001 Scheme"), the directors are authorised, at any time during the 10 years from the date of approval of the 2001 Scheme, to grant options to certain employees of the Company or subsidiaries of the Group, including executive directors (but excluding non-executive directors) to subscribe for shares in the Company at prices to be determined by the directors in accordance with the terms of the 2001 Scheme.

Pursuant to Chapter 17 of the Listing Rules, the Company can issue options so that number of shares that may be issued upon exercise of all options to be granted under the schemes does not in aggregate exceed 10% of the relevant class of shares in issue from time to time. The Company may renew this limit at any time, subject to shareholders' approval and the issue of a circular. The Company may also seek separate

shareholders' approval for granting options beyond the 10% limit to eligible employees specifically identified by the Company, subject to shareholders' approval and the issue of a circular. The Company can issue options so that shares to be issued upon exercise of all outstanding options does not exceed 30% of the relevant class of shares in issue from time to time. The maximum entitlement for any one eligible employee is that the total number of shares issued and to be issued upon exercise of options granted and to be granted in any 12-month period up to the date of the last grant does not exceed 1% of the relevant class of shares in issue. The Company can grant further options in excess of this limit, subject to shareholders' approval (with that eligible employee and his associates abstaining from voting) and the issue of a circular. The offer of a grant of options may be accepted within 30 days from the date of offer, upon payment of a non-refundable sum of HK\$1.0 by the grantee. The 2001 Scheme has a life of 10 years and will expire on 9th August 2011.

16 SHARE CAPITAL, SHARE OPTIONS AND WARRANTS (continued)

Share Options (continued)

As at 31st March 2007, the number of shares issuable under the options granted pursuant to the 2001 Scheme was 6,875,000, which represented approximately 2.9% of the then issued share capital of the Company. The movements in the number of share options under the 2001 Scheme during the year were as follows:

Date of grant (Note 1)	Exercise price	Exercisable period (Note 2)	Balance in issue at 1st April 2006	Number of share options exercised during the year	Balance in issue at 31st March 2007
26th February 2002 to 26th March 2002	HK\$10.2	26th February 2005 to 25th March 2007	254,000	(254,000) (Note 3)	–

			<u>7,214,000</u>	<u>(339,000)</u>	<u>6,875,000</u>

Note 1: Due to the large number of employees participating in the 2001 Scheme, the relevant information can only be shown within a reasonable range in this Annual Report. For options granted to employees, the options were granted during the underlying periods for acceptance of such options by the employees concerned.

Note 2: As one of the conditions of grant, the employees concerned agreed with the Company that the options shall not be exercisable within the period of 36 months from the date on which such options were deemed to be granted and accepted and shall not be exercisable after 60 months from the date on which such options were deemed to be granted and accepted. However, options shall be automatically vested to the grantees when the grantees reach 60 years of age.

Note 3: An aggregate of 254,000 share options were exercised at the exercise price of HK\$10.2 during the financial year. The weighted average closing prices of the shares of the Company immediately before the dates on which the options were exercised and at the dates of exercise were HK\$42.79 per share and HK\$42.67 per share respectively.

Note 4: An aggregate of 85,000 share options were exercised at the exercise price of HK\$8.71 during the financial year. The weighted average closing prices of the shares of the Company immediately before the dates on which the options were exercised and at the dates of exercise were HK\$38.76 per share and HK\$39.08 per share respectively.

Note 5: No options were granted, lapsed or cancelled during the year.

Share option expenses charged to the consolidated income statement are determined with the Black-Scholes model based on the following assumptions:

	Date of grant			
	20th April 2004	19th November 2004	23rd March 2005	12th August 2005
Fair value of each share option as of the date of grant	HK\$5.1	HK\$2.6	HK\$3.1	HK\$5.4
Closing price at the date of grant	HK\$15.0	HK\$10.9	HK\$11.4	HK\$19.3
Exercise price	HK\$15.0	HK\$11.03	HK\$11.41	HK\$19.3
Expected volatility	50.7%	49.1%	47.5%	48.0%
Annual risk-free interest rate	3.5%	2.8%	4.0%	3.9%
Expected average life of options	3.5 years	3.5 years	3.5 years	3.5 years
Expected dividend yield	2.6%	7.1%	5.5%	5.1%

The volatility measured at the standard deviation of expected share price returns is based on statistical analysis of daily share prices over the one year immediately preceding the grant date.

Warrants

An aggregate of 3,000,000 warrants have been exercised during the financial year ended 31st March 2006 and no warrants were outstanding as at 31st March 2006 and 31st March 2007.

18 FINANCIAL INSTRUMENTS

The Group enters into foreign exchange contracts and interest rate swaps to hedge certain exposures on fluctuations of foreign currency exchange rates and interest rates respectively. The Group does not use derivative financial instruments for speculative purposes.

Credit risk

Financial assets which potentially subject the Group to credit risk consist principally of cash, short-term deposits and trade debtors. The Group's cash equivalents and short-term deposits are placed with major financial institutions. Trade debtors are presented net of the allowance for doubtful debts. Credit risk with respect to trade debtors is limited due to the large number of customers comprising the Group's customer base and their dispersion across different industries and geographical areas. Accordingly, the Group has no significant concentration of credit risk. In addition, credit risks are mitigated by the use of insurance plans.

The Group manages these risks by monitoring credit ratings and limiting the aggregate risk to any individual counterparty.

Foreign exchange risk

The Group enters into foreign exchange contracts in order to manage its exposure to fluctuations in foreign currency exchange rates on specific transactions. Foreign exchange contracts are matched with anticipated future cash flows in foreign currencies, primarily from sales.

Interest rate risk

The Group's income and operating cash flows are affected by the change in market interest rates in relation to its interest-bearing loans. The Group uses interest rate swaps as cash flow hedges of future interest payments to convert certain borrowings from floating rates to fixed rates.

Fair values

The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward foreign exchange contracts is determined using forward exchange market rates at the balance sheet date.

Derivative financial instruments

Forward foreign exchange contracts and interest rate swaps contracts were designated as cash flow hedges and remeasured to fair values. The negative fair value of derivative financial instruments at 31st March 2007 designated for cash flow hedges were US\$46,000 (2006 positive: US\$0.6 million).

Forward foreign exchange contracts

The net fair value gains/(losses) at 31st March on open forward foreign exchange contracts which hedge anticipated future foreign currency sales and purchases will be transferred from the hedging reserve to the consolidated income statement when the forecasted sales and purchases occur, at various dates between 1 month to 6 months from the balance sheet date.

Details of the movements of fair value gains/(losses) arising from forward foreign exchange contracts entered by the Group are set out in note 17 on the financial statements.

The contracted amounts of the outstanding forward exchange contracts at 31st March 2007 was US\$6.5 million (2006: US\$24.3 million).

The Group does not anticipate any material adverse effect on its financial position resulting from its involvement in these financial instruments, nor does it anticipate non-performance by any of its counterparties.

Interest rate swaps

At 31st March 2007, there were no outstanding interest rate swaps (2006: nil).

Fair values

The fair value of trade debtors, bank balances, trade creditors and accruals and bank overdrafts approximate their carrying amounts due to the short-term maturities of these assets and liabilities. The fair value of term loans and obligations under finance leases is estimated using the expected future payments discounted at market interest rates.

The weighted average effective interest rate on short term bank deposits was 5.0% (2006: 4.3%) and these deposits had an average maturity of 1 day to 1 month.

19 COMMITMENTS (continued)

The Group has entered into agreements with an independent third party in the People's Republic of China ("PRC") to lease factory premises in Houjie, Dongguan comprising several factory buildings. There are a number of leases which expire in 2007, 2011, 2019 and 2022 respectively. The lease expiring in 2019 has a non-cancellable period of eight years which expires in 2007. At the end of this non-cancellable period, the lease can only be cancelled on six months' notice with a penalty equivalent to three months' rentals. The leases expire in 2022 can only be cancelled on six months' notice with penalties equivalent to three months' rentals. The leases expire in 2007 and 2011 are non-cancellable over the lease term. The operating lease commitments above include total commitments over the non-cancellable period of the lease terms.

In January 1996, the Group entered into an agreement with an independent third party in the PRC whereby the PRC party constructed in phases and leases to the Group a production facility in Liaobu, Dongguan. Under a fifty year lease agreement, the Group rented the first and second phases of the facility for non-cancellable periods of six and eight years after completion respectively. The first phase became fully operational in April 1998 and the completed production facility of the second phase became operational in October 2001. The operating lease commitments above include total commitments over the non-cancellable period of the lease terms.

Under a Brand License Agreement expiring 31st March 2010, a wholly-owned subsidiary of the Group is required to make royalty payments to AT&T Corp., calculated as a percentage of net sales of the relevant categories of products, subject to certain minimum aggregate royalty payments. The percentage of net sales payable varies over time and between products. There is no maximum royalty payment. The aggregate minimum royalty payments as at 31st March 2007 amounted to US\$38.3 million (2006: US\$55.1 million), whereas the annual minimum royalty payment varies throughout the agreement period between US\$12.6 million and US\$13.1 million. The subsidiary can renew the agreement for two additional five year terms provided certain performance requirements are achieved.

Pursuant to the terms of the Agreement, VTech has started the process of renegotiating certain terms of the Agreement subsequent to 31st March 2007.

During the financial year ended 31st March 2007, certain wholly-owned subsidiaries of the Group (the "licensees") entered into certain licensing agreements with various third party licensors for the granting of certain rights to use the relevant cartoon characters into the Group's electronic learning products. Under these licensing agreements, the licensees are required to make royalty payments to the licensors, calculated as a percentage of net sales of the relevant character licensed products, subject to certain minimum aggregate royalty payments. The percentage of royalty payable varies over time and between licensed characters. There is no maximum royalty payment. The aggregate minimum royalty payments as at 31st March 2007

amount to US\$2.6 million (2006: US\$3.9 million), of which US\$1.8 million, US\$0.7 million and US\$0.1 million are payable in the financial years ended 31st March 2008, 2009 and 2010 respectively.

20 CONTINGENT LIABILITIES

The directors have been advised that certain accusations of infringements of patents, trademarks and tradenames have been lodged against the Company and its subsidiaries. In the opinion of the legal counsel, it is too early to evaluate the likelihood of an unfavourable result. The directors are of the opinion that even if the accusations are found to be valid, there will be no material adverse effect on the financial position of the Group.

Various Group companies are involved in litigation arising in the ordinary course of their respective businesses. Having reviewed outstanding claims and taking into account legal advice received, the directors are of the opinion that even if the claims are found to be valid, there will be no material adverse effect on the financial position of the Group.

As at 31st March 2007, there were contingent liabilities in respect of guarantees given by the Company on behalf of subsidiaries relating to overdrafts, short term loans and credit facilities of up to US\$246.3 million (2006: US\$246.3 million). The Company has not recognised any deferred income for the guarantees given in respect of borrowings and other banking facilities for subsidiaries as their fair value cannot be reliably measured and their transaction price was US\$Nil.

As at the balance sheet date, the directors do not consider it is probable that a claim will be made against the Company under any of the guarantees.

23 MATERIAL RELATED PARTY TRANSACTIONS

During the year, the Group leased premises from Aldenham Company Limited ("Aldenham") for HK\$250,000 per month, to provide housing for a director in accordance with the terms of his service contract for a term of 2 years expiring on 31st March 2007. Aldenham is a wholly indirect subsidiary of a trust in which the family members of a director are beneficiaries. Aldenham is therefore a connected person of the Group as ascribed by the Listing Rules and the lease constitutes a continuing connected transaction under the Listing Rules, they have complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules. With effect from 1st April 2007, the Group renewed the afore-mentioned lease with Aldenham for HK\$250,000 per month for a term of 2 years expiring on 31st March 2009.

In the normal course of business and on normal commercial terms, the Group undertakes certain transactions with its associates. None of these transactions were material to the Group's results.

24 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE ANNUAL ACCOUNTING PERIOD ENDED 31ST MARCH 2007

Up to the date of issue of these financial statements the International Accounting Standard Board has issued a number of amendments, new standards and interpretations which are not yet effective for the year ended 31st March 2007 and which have not been adopted in these financial statements.

In addition, the following developments may result in new or amended disclosures in the financial statements:

	Effective for Accounting period beginning on or after
IFRS 7, Financial instruments: disclosures	1st January 2007
IFRS 8, Operating segments	1st January 2009
IFRIC 8, Scope of IFRS2	1st May 2006
IFRIC 9, Reassessment of embedded derivatives	1st June 2006
IFRIC 10, Interim Financial reporting and impairment	1st November 2006
IFRIC 11, IFRS 2 – Group and treasury shares transactions	1st March 2007
IFRIC 12, Service Concession Agreements	1st January 2008
Amendment to IAS 1, Presentation of financial statements: capital disclosure	1st January 2007

The Group is in the process of making an assessment of what the impact of these amendments, new standards and new interpretations is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Group's results of operations and financial position.

25 ACCOUNTING ESTIMATES AND JUDGEMENTS

The presentation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses.

Notes 15, 16 and 18 contain information about the assumptions and their risk factors relating to pension scheme obligations, fair value of share options granted and financial instruments. Other key sources of estimation uncertainty are as follows:

The Group recognises provision for expected return claims, which included cost of repairing or replacing defective goods, loss of margin and cost of materials scrapped, based on past experience of the level of repairs and returns. The Group uses all available information in determining an amount that is a reasonable approximation of the costs including estimates based on reasonable historical information and supportable assumptions. Changes in these estimates could have a significant impact on the provision and could result in additional charges or reversal of provision in future years.
